

Stradling Community Park Report

Things are really starting to take shape in Stradling Park community garden. A big thank you to SMK Building & Maintenance Ltd. They have cleared the whole site of brambles and rubbish and installed a fantastic new fence and gate, without their generosity it would have taken a lot longer to get this area of the park started.

Also as part of their community project week, we have had a team of students and teachers from Atlantic college working really hard in the garden. Removing stones, clearing rubbish and moving tons of woodchip that was kindly donated to us (along with the wood) by ESA Treecare from the Ash trees that were chopped down last year due to ash dieback.

Along with all the above you may have noticed some bird boxes and a bat box dotted around the trees which we received from a successful grant with the Vale Local Nature Partnership.

If you would like to be involved in this exciting project please contact us at the Town Hall.

New Fence and Gate installed by SMK Contractors
